PERFORMANCE rotisseries can be fitted with customizable roofs and illuminated signs to match your sales area and reinforce your visual identity.

Wide choice of colors available :

Double-walled stainless steel : superior thermal insulation and easy cleaning.

Heat-resistant glass : for enhanced safety and optimized thermal comfort.

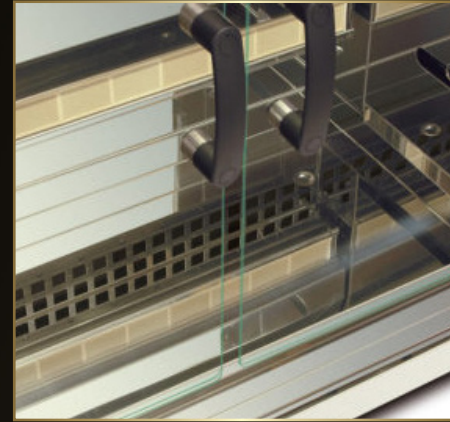

Easy maintenance : quick access to items to be cleaned.

Automatic rotation : uniform cooking on all spindles.

Simple controls : ergonomic control panel.

Ergonomic door handles in “cold” plastic prevent burn injuries.

Anti-scald K. GLASS for reduced external heat radiation (**energy savings**). Recessed panes with gutter for better juice recovery (**anti-slip safety**).

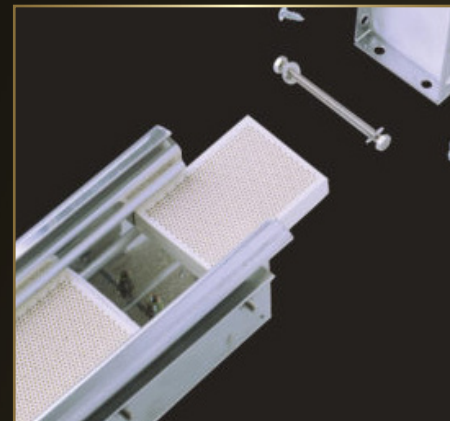

Sturdy hinges designed for heavy-duty use, with **integrated opening and closing locks**.

Gas fittings and electric switches, chrome-plated metal.

Removable double wall to prevent grease infiltration into technical compartments (engine preservation, electrical and gas circuits).

Removable and interchangeable ceramic inserts (**significant cost savings**).

The **PERFORMANCE** range is designed for professionals who have no room for error. Thanks to its high output, it can cook **large quantities** in a **minimum amount of time**, while maintaining **optimum cooking quality**.

Supermarkets & Hypermarkets / Self-service hot-spots and caterers / Food production plants
