

Special Market BrasiliaE

DESIGN

The Brasilia features a unique cooking system that allows for the roasting of whole marinated chickens, grilled entirely using the so-called “CRAPAUDINE” method to offer a variety of styles and flavors.

This innovative rotisserie system doubles production volumes while reducing energy consumption by the same proportion.

FEATURES

- All stainless steel
- Visibility and accessibility from the front and back
- Reinforced shielded heating elements
- 4 K-glass panels
- Removable grease tray with built-in drain
- Halogen interior lighting

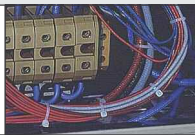

- 27 roasted chickens in 30 minutes
- Compact design thanks to optimized dimensions (shallow depth: 505 mm)
- Quick return on investment
