SPECTACULAR COOKING : THE SPATCHCOCK ROTISSERIE VERSION

The **BRASILIA** range is available in a specialized version for **SPATCHCOCK** cooking.

Thanks to a wide-opening grid system, the poultry is completely flattened, offering an **optimal caramelization surface, even cooking, and a strong visual presentation.** Ideal for caterers, butchers and sales outlets who want to catch the customer's eye while emphasizing product quality.

This type of cooking, combined with the visibility offered by the illuminated sign and glass cover, reinforces the artisanal and generous aspect of the preparation.

Gas / LP

EVEN AND TASTY COOKING

Thanks to the **SPATCHCOCK** technique, poultry is opened, flattened and then roasted on both sides for **even cooking** that's both **toasty and juicy**.

This process guarantees **perfect caramelization** of the skin while preserving the softness of the flesh.

Combined with this cooking method, **BRASILIA** can also be used to **grill vegetables**, offering a tasty, colorful and fragrant vegetable alternative, ideal for diversifying presentations.

ROBUST DESIGN AND ENHANCED SAFETY

All stainless steel structure for enhanced durability

Anti-scald K-glass to limit heat loss

Removable and interchangeable ceramic inserts

Separate compartments to prevent fire hazards (gas/electrical)

Halogen interior lighting for **optimum visibility**

Open support bar for **fast poultry placement**

Open-air markets, food trucks, mobile traders and caterers :
BRASILIA combines performance, compactness and authenticity to meet the needs of
professionals on the move.
